

PUBLIC SAFETY

Reliable Power for Lifesaving Communications

Public safety networks operate under constant pressure, especially during emergencies when power failures are most likely to occur. From 911 call centers and radio towers to emergency operations centers and mobile command units, uninterrupted power is essential to protect lives and maintain situational awareness.

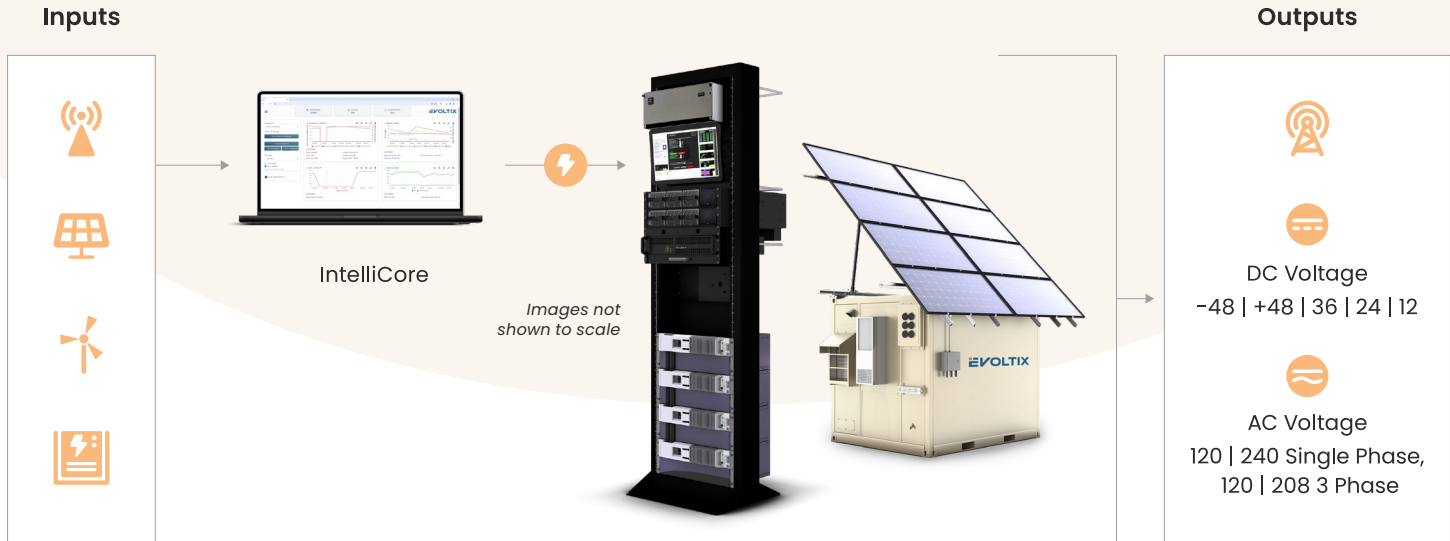

Why Public Safety Agencies Choose Evoltix

- ✓ **Zero interruption power** for mission-critical communications
- ✓ **Battery first architecture** that eliminates transfer delays
- ✓ **Real-time monitoring** and proactive alerting
- ✓ **Reduced maintenance** and fewer emergency site visits
- ✓ **Proven performance** in extreme weather and disaster scenarios
